# The Slow Bird Starts Early

In 2003, an album that is performed entirely by bamboo instruments named “Bamboo Banquet” was created. It is not only being the first record in its field that shakes earth and heaven, but also announcing the grand birth of a new music label.

---Rhymoi Music

# The Slow Bird Starts Early

In the past several years, Rhymoi Music never gave up striving for perfection and never regretting investing on music. It displays and diffuses Chinese culture with different appearances, themes and styles that have won a reputation in the music circle. From the original work “National Beauty”, the powerful drumming of “Rhythmize Heartstrings”, to the grand and soul-stirring “Three Kingdoms”, Rhymoi Music taps the unique charm of traditional culture from distinctive angles and developed it into peculiar themes. And each piece of the music becomes a “flowing architecture” after being elaborated. From the soul-awaking “Glimpses Of Tibet”, to the reminiscent “Dream Of An Opera” and the reborn classic “Nirvana Of The Phoenix”, Rhymoi Music always appears pure and refine, performing the music close even to the finest emotion, evoking many touching memories.

# The Slow Bird Starts Early

Every piece of work and every step of Rhymoi Music drew more and more attention from the music circle and audiences all over the world. In the past four years, the works of Rhymoi Music have been charted many times in the Top Ten Hi-Fi Records nationwide, some have even been invited to MIDEM in Cannes(The biggest international records expo.),which later also won the China Gold Record-the highest government award of records in China. The reputation and the record sales volume successfully show the audience's preference and prove the oldest fable that" heaven is bound to reward diligence".

The logo of Rhymoi Music is a unfledged but fluttering bird, soaring high towards the sky. It represents a simple dream with a little innocence, cuteness and touching. The slow bird starts early, depicts Rhymoi Music. People may regard it as modest, however Rhymoi Music looks at it as review and encouragement, it's the spiritual source of cheering up.

# Rhymoi Music

## Create music with heart

Without proud long-ranged foundation as others, we can only rely on ourselves and make unremitting effort.

Without so- called “backgrounds”, we can only contribute much more time and efforts since we believe that heaven is bound to reward diligence.

Without above all, we still have our own touching and cheering creed---create music with heart!

# Rhymoi Music

## Create music with heart

Rhymoi Music is more like a producing group than a record company. It is a creative group full of expression, unrestrained music soul and the rigid art spirit. The creativity here does not only means writing notes and melodies on scores, focusing on a single instrument play, but also a journey combined of enthusiasm and idea, happiness and torment. Every piece of work is generated from a certain touch. Every creating experience refines and polishes time and time again.

The first time----maybe a touch from a song during the long journey; maybe the tears of a seventy-year-old player while he's on stage; maybe the inspiration a musician gets during a jam session with his best friends. From the unexpected inspiration, the conflict of minds, to the choosing of the subject and program...every idea full of wisdom comes out from discord, enlightenment and integration of passion and subversion.

# Rhymoi Music

## Create music with heart

The second time---Masters! We invited famous composers that best match the record's style for producing; we invited the renowned players as well as the best recording engineer to participate in the production; and we also invited world class studio for completion. And we spent even more time in recording. Any tiny inadequacy will be cancel and recorded all over again, only to make it perfect.

The last time---deliberates obey the choice of words and the construction of the text, polishing and engraving the graphic design. Not only the music, but also the record itself is an exquisite masterpiece. The Rhymoi Music group pursues the perfection of every detail, every record is sailed abroad. Despite the high cost, it makes the last production overseas, till it becomes a work of art.

# Rhymoi Music

## Create music with heart

This kind of exquisite record is not only an art merchandise, but a work combines of inspiration, life, soul, spirit and desire to express itself.

## The Music of China

From tradition to modern, from origin to world music, in the list of Rhymoi Music's production, each one is different from another, however all contend in beauty and fascination. Although the origin spirit never changes and the taste of art never moves or retreats. "The Dragon Experience", "Nirvana Of The Phoenix", "National Beauty", "Glimpses Of Tibet".....just these names shall give you an unique "Chinese flavor". Rhymoi Music aims to express Chinese Music by multi-form and multi-angle, by this means to draw more and more attention to it from all over the world.

By abandoning the allure of convenient business interest, Rhymoi Music sticks to its original spirit, taking roots from the five-thousand years of Chinese music. We promote culture and integration of Chinese music into the world. Rhymoi Music shall continue creating and promoting Chinese music masterpiece, making a unique name card for China, which lets the people in China and abroad like its music. These works and ideas have special significance in the time of globalization.
