Audio Note UK *TT Two Deluxe* turntable with *Arm 3/II* & *IQ3* phono cartridge turntable system, \$8063

Super fun, high jump factor, classic look.

TT Two Deluxe turntable : two opposing internal motors drive a light Lexan platter. Aluminum subchassis with three point spring suspension. **\$4287**

Arm-3/II: 9" arm, drop in replacement for the classic single-hole Rega. Internally wired with Audio Note's AN-AI silver, includes captive AN-Vx interconnect. **\$2465**

IQ3: Moving magnet phono cartridge shares cantilever and diamond with IO1. **\$1311**

Audio Note UK *R Zero/II* phono stage \$2036

Level Zero phono preamplifier sets a new standard of performance for affordable, high quality analogue reproduction.

One pair 6112WA miniature dual triodes, moving magnet input.

Audio Note UK *CD1.1X* CD player \$3771

Level One integrated redbook CD player.

Philips TDA1543 DAC in non-oversampling digital filterless circuit. In house custom modified Philips front-loading transport mech. 6111WA miniature dual triode analogue output section.

Audio Note UK *Cobra* integrated amplifier \$5458

Audio Note's latest integrated amplifier, the Cobra is designed to drive a wide variety of loudspeakers.

28 wpc push-pull integrated amplifier with internal DAC, remote volume control, mute and input selection. Three analogue and three digital inputs. In house custom designed and manufactured double C-core output transformers. Valve complement: 4 x EL34, 2 x 6AU6, 2 x 5670.

Audio Note UK *AX Two/II* loudspeakers \$3995

The AX range is back! and completely reworked. Beautiful and effective new cabinets are now built in-house at the same Austrian factory as Audio Note's other loudspeakers. Crossovers and drive units are improved from the much loved originals.

2 way rear ported enclosure, Walnut or Black Ash.

Power and signal cabling from Audio Note UK

Custom drawn from their own Copper or Silver, then coated in a variety of dielectric polymer, depending on the particular cable's intended application.
